Cloud Computing, Cybersecurity,
Networking, Data Structures & Algorithms

SKILLS

- Teamwork
- Assertiveness and active listening
- Empathy
- Effective communication
- Creativity
- Conflict resolution

LANGUAGES

Spanish: Native
English: IELTS 6.5 Band

ABOUT ME

Software developer with a background in Applied Computing and Artificial Intelligence, with experience in full-stack development and software architecture. Proactive, fast learner and motivated to work on complex technological products.

WORK EXPERIENCE

August 2025 - March 2026

- Senior Software Developer – Mytel AI Technology

Full-stack development of web applications, including frontend and backend, API integrations, database management, and software architecture.

March 2026 - Present

- Software Developer & Co-Founder — RiseSense

Development of AI automation solutions, backend integrations, APIs, chatbots and appointment management systems for businesses.

STUDIES

2025 - Artificial Intelligence Top-Up BSc (Hons)

2026 Coventry University

2023 - Applied computing & Artificial intelligence

2025 MSMK University

2021- Spanish Baccalaureate

2024 IES Isaac Peral

PROJECTS

- Research project: Use of Artificial Intelligence in Medicine and Justice
- Breast cancer detection using Machine Learning
- Prediction of ground state energies of molecules using Machine Learning
- Secure e-commerce website covering vulnerabilities
- Creation of web pages with HTML
- Delivery company with the Traveling Salesman Problem and Dijkstra
- Hospital management program in C++
- Network design for a company in Cisco
- Databases in MySQL and PgAdmin
- Agenda in Python
